

A COMPLICATED SITUATION

TAFT HAS STATE, BUT ROOSEVELT HAS DELEGATES.

Situation Acknowledged by Party Leaders to Be Without Parallel in History of State of Massachusetts—Roosevelt Asks Delegates to Vote For Taft.

Boston, May 1.—The positive refusal of the Republican delegates at large to accept Col. Roosevelt's request today that they should vote at the Chicago convention for President Taft, who had received the presidential preference vote, although they were elected as Roosevelt delegates, has further complicated the situation arising out of the state primaries yesterday. The situation is acknowledged by party leaders of both sides to be without parallel in the political history of the commonwealth. Although the Republicans of the state selected President Taft as their candidate for re-nomination by a majority 3,605 over Colonel Roosevelt on the presidential preference ballot, at the same time they elected by a decisive vote the entire state of eight delegates at large pledged to the former president.

Colonel Roosevelt secured ten more delegates in the district elections and President Taft carried nine districts, for Taft and Roosevelt have each 18 delegates from the state to the national convention. A somewhat similar situation was existing on the Democratic ballot. Champ Clark, who had no pledged delegates on the ticket, won a two to one victory over Governor Wilson in the presidential preference contest. At the same time delegates at large pledged to Governor Foss of Massachusetts were elected to attend the Baltimore convention, though the name of Governor Foss did not appear on the presidential preference column. Roosevelt followers have announced their intention of asking a recount in the eighth district while the Taft men will do likewise in the ninth on account of the closeness of the vote.

Both the Roosevelt and Taft headquarters managers remained silent tonight upon the announcement of Col. Roosevelt.

A slightly different interpretation of the primary law as respecting district delegates was brought forward by Judge Thomas Reilly, chairman of the Democratic state committee.

Judge Reilly asserted that all district delegates should vote for candidate of their party who carried the presidential preference vote of the state, whatever their pledges, unless the vote whereby they were elected as pledged delegates happened to be greater than the vote of the district given to the opposition candidate, who received the presidential preference choice. A contest which the managers of the Taft campaign promise to carry to the National convention if necessary is threatened as a result of the independent candidacy of Frank Steierlich of Boston. Mr. Steierlich was not on the regular slate of Taft delegates, but had his name entered on the ballot as an independent pledged to Taft. The name was placed immediately above the slate of eight delegates at large also pledged to President Taft, so that many voters, following down the column crossed the name of Steierlich as well as the eight others pledged to Taft, thus marking nine names.

On the ground that this marking invalidated the ballot, hundreds of votes were thrown out by counters in cities and towns all over the state, the number running as high as 300 and 400. It is stated in New Bedford, Gloucester and Lynn. Taft managers claim that the loss of Taft ballots was so heavy from this cause that the president would have won the entire list of eight delegates at large had the full vote been counted, besides securing delegates in some of the more closely contested districts. They contend that inasmuch as the delegates' names were marked separately the intent of the voter was shown and all the ballots so marked should be counted, omitting the name on the list of nine which received the smallest vote.

After two conferences today, the eight Roosevelt delegates at large elected at the primaries yesterday to the Chicago convention, this evening decided not to take any joint action on the attitude adopted by Col. Roosevelt in releasing them from obligation to vote for him, but to leave each delegate free to act as he sees fit. The total preferential vote for three Republican candidates with returns from the town of Gosnold still missing, tonight, was as follows: Roosevelt 7,756; Taft 71,353; Meant Every Word 74,508.

Oyster Bay, May 1.—When he heard tonight that the Massachusetts delegates at large to the national Republican convention had said that they would vote for him despite his request to the contrary, Col. Roosevelt said:

"I have nothing to say except that I meant every word I said, and shall do everything possible to see that my request is carried out."

WILL GO INTO COURT

Manufacturers' Association Will Test Validity of New Employers' Liability Law.

Chicago, May 1.—Members of the Illinois Manufacturers' association announced today that they would test the validity of the new state employers' liability law, before paying out hundreds of thousands of dollars in increased rates to casualty companies. Colin C. H. Fyffe, counsel for the association, has started plans to test the law which went into effect today.

"This organization is not in the position of fighting the law," said John M. Glenn, secretary of the association, but we want to know definitely whether the law is constitutional before paying the additional rates scheduled by the casualty company. The increase in rates runs from 100 to 800 per cent, which is no small matter when the great number of employing concerns in this state is taken into consideration. There are some good features in the law and some bad ones. It is just like building a new bridge. Those who will have to pay for the bridge are not opposed to it, but they want to test it to know that it is safe."

Samuel A. Harper, attorney for the commission which drafted the new law, feels positive that it is constitutional as a similar law is in effect in ten states and has been passed upon favorably by the supreme courts of four states.

FLAG AT HALF MAST

POLITICAL FIGHT

Chicago, May 1.—The court fight between Harrison and Sullivan city and county officials, an aftermath of the recent Cook county Democratic convention, was continued in Judge Michael L. McKinley's court today.

Attorneys representing Sullivan Democrats argued that County Judge Owens had no authority what ever for his action in appointing Election Commissioner Anthony Carnevali temporary chairman of the county convention. Attorney Austrian asked that a jail sentence be imposed upon Judge Owens for his actions just previous to and on the day of the county convention.

Attorney Austrian argued that Judge McKinley's injunction, issued against Judge Owens' orders regarding the county convention, was of such a nature that Judge Owens had no legal right to ignore it.

IDENTIFYING DEAD

Halifax, N. S., May 1.—The work of identifying the Titanic's unclaimed dead is proving almost as difficult as their recovery from the Atlantic, the name of not a single passenger who perished has been added to the list of reclaimed to night.

Ambassador Calero, who arrived here from New York, will go to Lake Geneva, Wis., before going to Washington.

FOR IMPROVED CONDITIONS

CHURCHES MUST ASSIST WAGE EARNERS.

Special Committee Prepares Working Program to Be Presented to General Conference of Methodist Episcopal Church—Recommendations Made.

Minneapolis, Minn., May 1.—Asking that its churches throughout the world come out squarely in favor of improved working conditions for wage earners, a special committee had prepared for presentation to the quadrennial general conference of the Methodist Episcopal church, which opened today, a working program to disprove the charge that the church is not in sympathy with the poor. The report of the committee which has been at work, states that labor conditions have become such that the church must take a prominent part in them. After asserting that this church had its beginning among the poor and the bulk of its members have always been wage earners, the report recommends for adoption by conference, which represents more than 3,000,000 members, a propaganda calling for:

- Abolition of child labor.
- Reduction of working hours to the lowest practicable point.
- Safeguarding the conditions of toll of women.
- Equitable division of the profits of industry.
- Protection of workers from the risks of enforced unemployment.
- Provision for old and injured workers.

It is expected the demand that the church go on record on these subjects will provoke lively discussion in committee.

When the conference convened for a month in its 25th session to day with delegates present from all parts of the world, Joseph B. Hingeler, of Chicago, was re-elected secretary for four years.

Reports were submitted to the conference showing the total membership to be 3,234,822 with 18,989 ministers, 39,398 churches and 163 local conferences. Last year the church raised \$1,072,997 for foreign missions, while in 1906 missionaries were maintained. The total value of the church and parsonage property throughout the world was given as \$216,490,437. The church has 360 educational institutions with 73,000 students. Bishop William Burr of Switzerland delivered the chief address at the opening session, describing the progress of the church in Europe.

TROUBLE AT A MAY DAY MEETING

STARS AND STRIPES TORN DOWN AND TRAMPLED ON.

Incident Took Place During Fierce Fight at Gathering of Socialist Party Held in New York—Industrial Workers of World Blamed.

New York, May 1.—The stars and stripes were torn down and trampled under foot and a red flag substituted during a fierce fight at a May Day meeting of the Socialist party and affiliated unions in Union Square Park late to day.

Responsibility for the tearing down of the flag is disclaimed by the Socialists, who assert that members of the Industrial Workers of the World committed the act. The Socialist representatives on the platform appear to have done their best to protect the national colors. The trouble started at the conclusion of a parade of 5,000 men and women who gathered in the park for speechmaking. Red banners, the emblems of Socialism, already adorned the speaker's platform and the band was playing the "Marseillais" when the stars and stripes were carried to the stand as the first speaker was about to be introduced.

"Take that dirty rag down," went up a cry from the crowd. But those on platform held their ground and some with cooler heads tried to quiet the tumult that had broken out.

"We don't recognize that flag," cried a man in front as he tried to reach the platform. That cry was taken up by others, a number of whom fought their way to the platform. Some of those on the platform tried to protect the flag and a fight resulted, in which a lone policeman was the only officer who figured. His club knocked three men down. Several men were tossed bodily over the platform rail into the crowd, bloody faces were numerous. The big American flag was finally down and hurled to the ground. Miss Carolina Dexter, a member of the Socialist party, a tall muscular woman, elbowed her way to where the fallen banner lay. "Then like you should be shot," she cried as she gathered up the flag. She met no resistance and carried the flag home with her.

With nothing but red banners to decorate the platform the meeting proceeded, but the program as arranged by the Socialist party had to given up and the speakers were mostly from the ranks of the Industrial Workers of the World.

The bill carries \$33,519,194, approximately 2,640,000 less than for the current year. Salary provisions for 14,877 officials and employees show a reduction of 406 names on the payroll. July 1 is fixed for the end of the commerce court, whose jurisdiction would be re-invested in the other United States courts.

The Democrats cut \$92,280 from the salaries paid the employees in the house wing of the capitol. The bill also restricts the number of United States circuit judges to twenty-nine. It also proposes to abolish the bureau of manufactures and statistics in the department of commerce and labor. The various departments estimated that \$2,165 more than Chairman Fitzgerald's committee, provided. The Republican minority favored the retention of the commerce court and bureau of manufactures and statistics.

Atlanta, Ga., May 1.—Oscar Underwood of Alabama is Georgia's choice for the Democratic nomination for president, as expressed in the presidential preference primary in this state today. In the state, and that his majority over Woodrow Wilson will be between 7,000 and 8,000.

The names of Champ Clark and Judson Harmon also appeared on the ballot, but they received a comparatively small vote. Underwood's success is notable in view of the fact that five leading counties, Fulton, Chatham, Bibb, Richmond and Floyd, gave majority for Wilson.

REGULAR ORGANIZATION LOST IN PENNSYLVANIA.

Party Machinery Wrested From Senator Penrose and Placed in Hands of Followers of Roosevelt—Delegates Selected and Ticket Nominated.

Harrisburg, Pa., May 1.—The Republican state convention, under the leadership of former state Senator William Flinn of Pittsburgh, today wrested control of the party machinery from United States Senator Boies Penrose, who has led the regular organization in the state since the death of Matthew Stanley Quay, selected twelve delegates at large and twelve alternates instructed to vote for Theodore Roosevelt for the Republican presidential nomination; nominated all the progressive candidates picked in caucus by the Roosevelt delegates, named a new state chairman to succeed former Speaker Henry F. Walton and adopted a new set of rules for the governing of the party in the state. In fact the Roosevelt faction made a clean sweep.

"The majority is entitled to everything," said Senator Flinn when temporarily presiding while a minor contested seat case was before the convention.

"And when a vote is a tie the benefit of the doubt will be given to the Roosevelt men," he added amid cheers.

Senator Penrose, although a delegate, did not attend the convention, but his chief lieutenant, state Senator James F. McNeel, the Philadelphia leader, remained throughout the six hours the convention was in session and saw his wing of the party shorn of power.

"Good-bye Bill," he said as he shook hands with Flinn in the last moments of the convention. "Good-bye, Jim," Flinn replied. "You are a game sport. You have been shooting at others so long, I didn't know how you would take it."

"Well we have a few muskets left," smilingly retorted the Philadelphia leader as he turned to leave. The convention placed in the field the following ticket:

Auditor-general—State Senator A. W. Powell, Pittsburg.

S.S.S. CURES OLD SORES

If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S. S. S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S. S. S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S. S. S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. MAYOR DAVIS RETURNS.

Mayor George W. Davis returned home from a week's visit with friends at Paris, Mo., where he went for a little rest and recreation. The Missouri city is by no means as gay as the metropolis by the same name on the other side of the Atlantic, but nevertheless the mayor succeeded in having a pleasant time. Parts of several days he spent fishing in Salt River, a stream which politicians usually shun.

WILL TRAVEL IN EUROPE.

Wednesday morning Rev. Fr. D. Crowe of Kewanee, who was in the city to attend the reception in honor of his mother and Mr. William R. Routh, left for an extended trip through Europe for the benefit of his health. He went from this city to St. Louis and from there started to New York city, from which port he will sail. For a time Fr. Crowe has not been in good health and his physicians thought that the trip abroad would greatly aid in restoring his health. Aside from attending to the duties of a large parish in Kewanee Fr. Crowe is a member of the state park commission and was greatly instrumental in securing Starved Rock as a state park.

KEEP THE KIDNEYS WELL.

Health Is Worth Saving and Some Jacksonville People Know How to Save It.

Many Jacksonville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger. Use Doan's Kidney Pills—a remedy that has cured thousands of kidney sufferers.

The following statement leaves no ground for doubt.

Mrs. Charles Corwin, Maple street, Winchester, Ind., says: "I was annoyed for weeks by pain in the small of my back, so severe at times that I could hardly get around to do my housework. In the morning I arose feeling very lame and hardly able to walk, and to stoop or lift was out of the question. My husband advised me to try Doan's Kidney Pills and I accordingly procured a box. They did me a great deal of good and in a few days after I began their use, the backache as well as the other troubles had disappeared."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SEEK DAMAGES FROM CHICAGO TRIBUNE

Joseph DeGoveia and Simeon Fernandes Are Suing For \$25,000 Each—Article on Water Supply Basis of Action.

Former Aldermen Joseph DeGoveia and Simeon Fernandes by their attorneys, Bellatti, Barnes & Bellatti, have instituted two suits for damages, each for \$25,000, against the Chicago Tribune company. The praecipes in the cases were filed Wednesday in the office of Circuit Clerk Rawlings and the declarations will follow, it being the announced intention to have the cases come to trial at the May term of the Morgan county circuit court.

The cases are the outgrowth of an article which appeared in the Tribune last Sunday written by Oscar E. Hewitt, a staff correspondent, concerning the Jacksonville water supply. The section of the article on which the action for damages is based goes on to say that two acknowledged experts on the subject of water supply who previously had been known only as skilled mechanics subsequent to the beginning of the experiment of the Widenham & Danb wells, purchased large touring cars.

After reading the article in the Tribune, Mr. Goveia, who is a former alderman and owns an automobile, consulted with his attorneys, Bellatti, Barnes & Bellatti, and determined upon the suit. It communicated with ex-Alderman Fernandes, who is at West Baden, Ind., and Mr. Fernandes directed that a suit also be brought in his behalf. The suits are separate and each is for \$25,000.

J. A. Bellatti in reply to a question last night as to how service can be secured on the Tribune stated that Messrs. Bellatti and Fernandes were served upon Joseph Estess, who is agent and distributor for the Tribune company in Jacksonville. Mr. Bellatti said that as the Tribune company is a corporation he considered it possible to get service in this manner. Messrs. Goveia and Fernandes believe that the Tribune referred to them and they maintain that they have been damaged by the insinuation.

RECALLS EARLY SCHOOL DAYS

George M. Blair Has Contract Made in 1849 Between William McKendree McElfresh and School Patrons—Hebron School in 1848.

In looking over some old papers recently George M. Blair found a copy of an agreement made by Mrs. Blair's father, the late Dr. William McKendree McElfresh and the citizens of township 15, range 10 west. The old document was made in July 1849 and is well preserved and a copy of it is given herewith. Dr. McElfresh, then a young man, was engaged in teaching in Morgan county schools and for years he served faithfully and efficiently as a teacher.

Among the old papers Mr. Blair found an old schedule kept by Dr. McElfresh when he was a teacher of Hebron school in 1848. The schedule is an accurate record of the scholars' attendance for four months, Monday, April 3, 1848, is marked "Rain," which gives the impression that the heavy downpour on that day made it impossible for the children to attend school. A roster of the names is given below.

Terms of Agreement.
Article of agreement, made and entered into between Will McElfresh of the first part and the citizens of Township 15, Range 10 west, of the second part. Will McElfresh of the first part proposes to teach a common school of one-quarter, or 60 days, for the consideration of \$2.50 per scholar. The said Will McElfresh proposes to teach the following branches: Spelling, reading, writing, geography, arithmetic and grammar. Bananas.
Bananas, if they are ripened, may be used with advantage as a vegetable. Cut the fruit in halves, stew these for twenty-five minutes in just a little water, drain, cover them with a cream sauce such as you use for cauliflower and serve them hot. The fruit is a delicious garnish to meat. Cut round slices from ripe, firm bananas, fry them in butter and lay a few on the top and round a broiled steak as it goes to table.

DEATHS AND FUNERALS

Low.
Elijah Lowe died Tuesday evening at the home of his father, James Lowe of Concord. He was a victim of consumption and had been ill for some time.

Deceased was an unmarried man about 39 years of age and bore an excellent reputation in the community in which he lived. He was a member of the M. P. church and was steady and industrious and had a large circle of friends. A proof of this was the fact that a number who had known him contributed funds and requested J. M. Leonard to come to the city and buy some nice flowers for the funeral.

He leaves his parents, a sister, Mrs. Clark of Missouri, and one unmarried at home.

The funeral will be conducted in Concord at 8 this morning and the remains will be taken to Missouri for interment.

Long.
A dispatch was received Wednesday stating that Sylvester Long had died at 8:15 a. m. at his home near Seymour, Ia.

Mr. Long was born northwest of Concord, March 29, 1866, and was the son of Mr. and Mrs. Milton Long of South Diamond street, this city. He leaves a wife, his parents, three brothers, Mr. R. and Winton of this city and Rev. Arthur Long of Des Moines, Ia., and one sister, Miss Ida Long at home. His father was present at the time the son passed away. Mr. Long was a man of excellent character and good standing in the community in which he lived. The funeral will take place Friday.

Kelcoe.
Mrs. Margaret Kelcoe died at 10 o'clock Wednesday morning after an illness of brief duration. She was the eldest daughter of Mr. and Mrs. Eugene Sweeney, 773 East College avenue, and was born in this city, June 19, 1884, where she has spent her entire life. She is survived by her parents, four brothers and three sisters, as follows: Myles of Colorado Springs, Colo., Eugene, John, Edward, Charlotte, Helen and Isabel, all of this city.

Mrs. Kelcoe was a faithful member of the Church of Our Savior and her life was such as to command the admiration and love of a host of friends, who will regret to learn of her death.

The funeral will be held at 9 o'clock Friday morning from the Church of Our Savior. Interment will be in Calvary cemetery.

MILK, TUTTLE'S PARROTS.
Milk, Tuttle and her parrots are billed for the Grand Opera house Thursday and Saturday. Milk, Tuttle has the only singing parrot ever seen on the American stage. The bird sings in three different keys, soprano, baritone and contralto. Another parrot plays three musical instruments. "Watch the Professor" is a humorous sketch and other performances make the attraction worthy of a large house.

COMMITTEE APPOINTED.
At the student meeting of Illinois college Wednesday morning Arthur Kingsley, Viggo Jensen and Robbins Russell were named as a committee to make local arrangements for the Illinois-Illinois debate, which will be held in this city Thursday, May 9.

FRANK ROBERTSON.
John F. Berry of Pine Street has purchased the Frank Robertson property at the corner of Webster avenue and West College avenue. The deal was made Wednesday through Wiswell & Son. Mr. Berry will get possession June 1 and will establish his residence there. While the property generally is in first class condition, Mr. Berry nevertheless, will do some remodeling and improving about the place and will certainly have a fine home.

GUS HOFFMAN ILL.
F. J. Waddell has received a letter stating that Gus Hoffman underwent a surgical operation in New York city last Saturday and that at the time of writing the patient was doing as well as could be expected and hoped to pull through all right.

CHILD HURT EYE.
Paul, the son of Mr. and Mrs. G. W. Gilbert, had the misfortune to fall Wednesday, striking his face on a piece of iron bed wire and cutting his eye lid. Fortunately the accident was not serious.

WEDNESDAY CLASS IS

25 YEARS OLD

Silver Anniversary of Well Known Literary Organization Suitably Observed—Dinner Followed by Program at Kirby Home.

The 25th anniversary of the Wednesday Class, at the classic old home of Judge and Mrs. E. P. Kirby on Wednesday evening was one of the most delightful occasions in Jacksonville's history to its members and invited guests. To begin with an elegant 6 o'clock dinner was served in the parlors of the old house; the tables spread with elegant appointments of china, silver and glass, and brightened with beautiful flowers.

After this part of the festival was past the company was invited by the president, Mrs. Ensley Moore, to the "feast of reason and flow of soul."

Mrs. Moore gave a very graceful address which served as a cordial word of welcome for each guest. Mrs. Moore had an appropriate remark each of the several persons who took part and so the president in reality had a large place in the success of the very excellent program.

Mrs. E. P. Kirby was first called upon and gave messages from absent or past members, including a poem by Mrs. Best, now of Los Angeles, Calif.

That the Class is not bounded in its work by the Pacific alone was shown, when Mrs. Martin Weil read a letter from Mrs. Martin Vogel of New York city, speaking, in her charming manner, of the members of the Class who had "gone on before." Then Mrs. Hayward Post of St. Louis sang most delightfully two numbers, "I Know Not Why" and "The Rose in the Garden."

Mrs. William Atwater, of Nebraska, who had been expected to be present, but was detained by illness, sent this sentiment:

"The chains of friendship stretching far Link days that were with days that are."

Mrs. Thomas Worthington then in an informal, but racy manner, gave the "Ancient History" of the first years of the Wednesday Class.

This was followed chronologically by a fuller and more definite story of the later years of the organization by Mrs. U. G. Woodman and was a paper full of information and replete with witty references to the members and sayings of the recent years. It is rarely that so fine a record is given and so finely expressed.

It goes without saying that the Wednesday Class has numbered among its membership many of the brightest women "The Athens of the West" has known so that Mrs. Woodman's chronicle could not but be filled with wisdom and happy thoughts.

To Mrs. Frederick S. Hayden fell the duty of casting the horoscope of her society for the coming twenty-five years, and the delightfully informal way in which she fulfilled her task, and the funny way in which she put things, crowned the feast of reason with words suggestive of the "wonders yet to be" in woman's mental and social life. Then, again, Mrs. Post was called upon, and again won the applause of her hearers in giving the song: "Love Was Once a Little Boy"—COWENS.

And, with words of gracious appreciation of the presence of guests and the enjoyment of the evening, the president declared the anniversary a closed incident.

Much credit for all the pleasures of the evening was due to the committee on program—Mrs. Kirby, Mrs. Weil and Mrs. Woodman.

The excellent dinner was served by Messrs. Hood & Larson of the Peacock Inn.

The roster of Wednesday Class shows the following names:

Members—Mrs. A. L. Adams, Mrs. Walter Ayers, Mrs. W. A. Bancroft, Mrs. C. A. Barnes, Mrs. Carl E. Black, Mrs. L. M. Chambers, Miss Minnie Cole, Mrs. Frank Elliott, Miss Maria Fairbank, Mrs. F. E. BIDS FOR ODD

The committee from Illinois lodge No. 4, I. O. O. F., which is to oversee the construction of the new lodge headquarters on East State street, held a meeting Wednesday night at the office of C. W. Buckingham, at which time bids for the work of remodeling the property in accordance with the plans submitted were opened, being as follows: Joshua Vasconcellos & Sons, \$14,962; Charles Seymour, \$15,740; M. G. Fernandes, \$16,633; John Wolke, \$17,163. Architect Buckingham had estimated the cost of the work at \$15,000. The bid of Vasconcellos & Sons, therefore, is very near that amount, being \$88 less, and it is very likely that this firm will receive the contract. The above figures were not given out officially by the committee, but are reported to be correct. The bids given include all work needed with the exception of the plumbing.

CORN IS KING

AND MORGAN COUNTY IS HIS CAPITOL.
He is at home here. His subjects understand him and like him. He gives them every year full and satisfactory returns for all they do for him. Morgan county land costs money, but it is worth it. Land elsewhere can be bought cheaper, but it is worth less, and you never know when it is going to fail you. Morgan county crops never fail.

For sixteen years we have talked this and nothing but this: Stay with the dirt you know. Keep your farm; or, if it is too small for you, buy a larger one that you know all about. We can sell you the farm, and we can get you all the money you need to pay for it—home money—Morgan county money—money that has been made, grown if you please, in Morgan county dirt, and that is not afraid to go back into it.

We have confidence in Morgan county land, and the money-owners of Morgan county have confidence in us, and for sixteen years the combination has been working well. We have always had the money to lend, and our money clients have never lost a dollar nor had to foreclose a mortgage of a farm.

Bowels are Basis of Child Health

The careful mother, who watches closely the physical peculiarities of her children, will soon discover that the most important thing in connection with a child's constant good health is to keep the bowels regularly open. Sluggish bowels will be followed by loss of appetite, restlessness during sleep, irritability and a dozen and one similar evidences of physical disorder. At the first sign of such disorder give the child a teaspoonful of Dr. Caldwell's Syrup Pepsin at night on retiring and repeat the dose the following night if necessary—more than that will scarcely be needed. You will find that the child will recover its accustomed good spirits at once and will eat and sleep normally. This remedy is a vast improvement over salts, cathartics, laxative waters and similar things, which are altogether too powerful for a child. The homes of Mrs. A. W. Smith, Viola, Ill., and Mrs. L. E. Froelove, 307 So. 15th St., Springfield, Ill., are always supplied with Dr. Caldwell's Syrup Pepsin, and with them, as with thousands of others, there is no substitute for this grand laxative. It is really more than a laxative, for it contains superior tonic properties which help to tone and strengthen the stomach, liver and bowels so that after a brief use of it all laxatives can be dispensed with and nature will do its own work. Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. C. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

ENFORCE OR ABROGATE

Is Opinion of Senators Regarding Monroe Doctrine—Japanese Activity the Subject Discussed.

Washington, April 1.—The United States should either enforce the Monroe Doctrine, or formulate a new one broad enough to prevent Japanese commercial interests from securing control of territory about Magdalena Bay in the opinion of Senators Lodge, Bacon and other members of the foreign affairs committee of the senate. In a debate to day following the receipt of President Taft's message transmitting the correspondence covering Japanese activity in Western Mexico, leading members of the senate declared that the control of strategic position even by commercial interests wholly Japanese in character, could not be permitted without menacing the safety of the United States.

The Magdalena Bay papers were referred to the foreign affairs committee, which is expected to consider the case with a view to outlining the attitude of the United States on subject of the acquisition of land on this hemisphere by foreign nations or by their subjects.

J. S. Wooters, 715 South Pine street, Central, says for nine years he drove his rural route wagon, but his kidneys became congested, he had dizzy spells while driving, and other symptoms of kidney trouble. After taking three bottles of Foley Kidney Pills he says: "My kidneys are again in good condition and I am once more at my regular work. I have already recommended Foley Kidney Pills to many people." BIG CATHEDRAL AT NATION'S CAPITAL.

Washington, D. C., May 1.—Eminent prelates and laymen of the Episcopal church throughout the country assembled in Washington to day for the formal opening of the Bethlehem Chapel of the Holy Nativity. The services, which will continue the entire week, were opened with a sermon this morning by Bishop Tuttle of Missouri, the presiding bishop of the church. The Bethlehem Chapel of the Holy Nativity is to be a part of the National Cathedral of St. Peter and Paul, the great Episcopal church edifice, which is rising on Mount St. Albans, in one of the suburbs of the national capital. The corner stone of the edifice was laid several years ago by the Bishop of London. When completed the cathedral is expected to surpass in size and magnificence any similar edifice in America, with the exception of the Cathedral of St. John the Divine in New York City.

There are people in this town who unthinkingly neglect a "mere cold" although they would not otherwise expose their children or themselves to danger. O'Brien, pastor of St. Margaret's church of this city. The program opened this morning with solemn high mass at the church in the presence of a large audience. Bishop Thelen of Lincoln, Neb., a life-long friend of Father O'Brien, preached the jubilee sermon.

FATHER WILL OPPOSE SON.

Pottsville, Pa., May 1.—Much interest is manifested in the trial of the seven residents of Minersville, who are in jail here charged with killing Michael Sweldaw during a quarrel over religion. The case is among the first on the calendar of the May term of the criminal court, which will convene next week. An unusual feature of the trial will be the spectacle of father and son appearing as opposing counsel. District Attorney C. A. Whitehouse will act as prosecutor, while his father, W. J. Whitehouse, will appear as counsel for the defense.

Mrs. Chas. Hayes, 831 Glendale avenue, Peoria, has suffered from nervousness, backache, and dizzy headache, as a result of kidney trouble and says: "I commenced taking Foley Kidney Pills and they soon rid me of all kidney trouble and helped me so promptly I can safely recommend them." As "Ed" Howe Sees Life

A man with a good intention, but too weak to carry it out, is better than a man with a scheme so vicious he is afraid to risk it.

As soon as a woman is actually in love with a man, she begins to wait on him.

The more powerful a daily paper is, the more people enjoy it when a little weekly roasts it.

Baseball games are decided by umpires as honest as can be found, and not by the crowd and the players; when the umpire makes a decision, there is no recall. If the recall were allowed in the decisions of umpires, we would not be able to see a game in two hours; that big game between Chicago and New York would probably be going yet.

Abraham Lincoln, a really great man, often laughed at himself; but Walt Whitman, the poet, is always in dead earnest.

Young people are always enthusiastic; especially about eating.

Owning an automobile, and being asked to tell about its upkeep expense, will cause a man to be more unreliable than fishing.

Daniel Boone is known as the greatest Indian fighter, because his admirers invented big stories about him. The facts probably are that Boone ran as often as other men, and missed as many shots.

You know what women say privately about us men. It's a good thing that they don't run the newspapers, and make their charges in print.

Women never eat so heartily as they do of party refreshments.

The International Harvester company located at Aurora had a flattering offer to move but finally the home people outbid in attractions and kept the plant.

Stella Roberts and Lizzie Reed, both of East St. Louis, are on trial for white slave traffic, the complaining witness being a girl who says she was enticed away when only 14 years old.

Alderman Rimmerman, a highly respected official of Lincoln, is dead. In the East St. Louis stock yards four lots of cattle, 48 in all, were brought from the state experimental farm in Mississippi and topped the market. They were Jerseys, Short Horns and Herefords, the latter two being above the others in price. They were fed 150 days mainly on cotton seed and hulls with some hay and silage in some cases and the feeders claim a profit of 10 per cent.

Clarence Golden from near Manila visited Peoria one evening, and was accosted by two men who said they were government detectives and claimed he had been passing counterfeit money. Golden said he had not and produced a ten dollar bill to prove his assertion. The men took it and said they would investigate its quality and report, but they failed to show up again.

Mrs. Cornelia Dudley of Galesburg left her estate to Knox college, stating in her will that her sisters did not need the money and now three of the sisters come forward and decide to contest the will on the ground of mental incompetency of the testatrix and say a surviving sister is in absolute want.

Sir Thomas More's Head.

When the wise and witty Sir Thomas More was beheaded his head was stuck on a pole on London bridge, where it was exposed for fourteen days, much to the grief of his daughter, Margaret Roper, who resolved to secure it. "One day," says Aubrey, "as she was passing under the bridge, looking at her father's head, she exclaimed: 'That head has lain many a time in my lap. Would to God it would fall into my lap as I pass under.' She had her wish, and it did fall into her lap."

Probably she had bribed one of the keepers of the bridge to throw it over just as the boat approached, and the exclamation was intended to avert the suspicion of the boatmen. At all events, she got possession of it and preserved it with great care in a leaden casket until her death, and it is now enclosed in a niche in the wall of her tomb in St. Dunstan's church, Canterbury.—London Notes and Queries.

The Canny Grocer.

The canny grocer sized up his customers.

She had ordered six strictly fresh eggs.

He took down the paper bag and, going to the basket, picked them out.

Twisting the top of the bag together, he handed it to the woman, who paid him and went away.

The canny grocer smiled.

He had given the women seven eggs when she ordered but six.

He knew that when she reached home and found she had seven instead of six eggs she would be so delighted with the supposition that she had overreached him that she would entirely disregard the fact that six of the eggs were stale and one was dubious.

For the grocer understood human nature.

And he was canny.—Cleveland Plain Dealer.

Deep Grief.

Throughout his career as a newspaper reporter the young man's assignments had taken him into demonstrative crowds whose periods of noisy demonstration it was his duty to time. "Mr. A. finally appearing, the audience cheered for fifteen minutes." "Senator X. finished his second joke amid laughter that lasted for ten minutes." or "At the close of the speech the audience applauded wildly for thirteen minutes."

These and similar records of the public pulse plentifully adorned nearly every story the young man wrote. One day he was sent to attend the funeral of a rich and crusty tempered old gentleman whose young wife had notoriously repented her choice. The man would up his story of the funeral thus: "In the silence that ensued the widow wept for sixteen seconds."—Washington Star.

Discovery of Speed of Light.

One of the greatest discoveries of science is due to observation of the eclipses of Jupiter's moons. It was found that when the earth was in the part of its orbit nearest to Jupiter these eclipses occurred sixteen minutes earlier than when it was in the farthest part, whereas by all rules of astronomy they should have occurred at the same minute each time. It was deduced from this that the light was not instantaneous and consequently took sixteen minutes to traverse the diameter of the earth's orbit, a distance of about 200,000,000 miles, thus giving to light a velocity of 186,000 miles a second, which was accurately shown later by other experiments.—Chicago Tribune.

The Points of Our Stars.

The stars on our flag and those on the great seal of the United States, as well as those on the seal of the president, are five pointed. The seal of the house of representatives, however, shows six pointed stars, and there are six pointed stars on the obverse of the half and quarter dollar coins, with five pointed stars on the reverse. The reverse of these coins is a copy of the great seal, with the clouds and the stars omitted. So far as can be ascertained the six pointed star is derived from the colonial coins, which were designed in the manner of English heraldry, which sanctions that star. The stars on the flag are copied from the Washington coat of arms.—Harper's.

ART EXPERTS.

They Can Judge Old Pewter and China Ware by the Feel.

A dealer in antiques was talking about art experts.

"Take, for instance," he said, "an expert in old pewter. You think perhaps he distinguishes old pewter by the marks—the Tudor roses, the maker's name, and so forth. Bless your heart, those marks are continually forged. No, he distinguishes old pewter by the feel.

It is like the china expert. He, with his eyes closed, will distinguish hard and soft paste china. It's the feel again—the fingers trained by years and years of study till each one has a brain like a cat's paw.

"Oriental rug experts have a very subtle sense of rug differences. Sometimes they distinguish a rug by its smell—the smell of the wool and the dye. This seems incredible till you think of the Harris tweed, that imported cloth that you yourself can distinguish by its smell—the smell which never leaves it, of the peat smoke of the cottage wherein it was woven on a hand loom.

"Wool sorters, a less highly paid class of experts, can take up a handful of wool and by its color tell you whether it came from Texas, from the territories, from England or from Canada. The soil, you see, gives its own color to the wool."—Exchange.

SAUERKRAUT EXPLODES.

Yes, Indeed, the Very Best Kind.

When the Cabbage Ferments.

That German delicacy, sauerkraut, is made in large quantities in this country, and tons and tons of cabbages are shipped up to supply the demand. The Germans stoutly declare that all of their kraut is strictly handmade and that the imported kind is vastly superior to the American machine made article. They say that there is no way to obtain the long, slender delicate strands of cabbage of which the finest quality of sauerkraut should be made other than by having it sliced up with a sharp knife in the hands of a skilled workman. Nevertheless the greater part of the sauerkraut eaten over here is the product of an American labor saving method.

Sauerkraut does not look like a particularly highly volatile substance when it appears on a platter alongside of a pink pig's knuckle or as the foundation or groundwork upon which is placed the plump, brown frankfurter sausage. But it does frequently explode, sometimes with sufficient violence to wreck its container. This happens when fermentation sets in. And if a carload of sauerkraut goes up barrel after barrel the wreckage is great and the loss complete, while the walls, roof and floor of the car are likely to be covered with the pickled cabbage inches thick.—New York Sun.

A Difficult Problem.

A countryman having been summoned to appear before the magistrates for not having a name on his cart was in due course brought before them. The magistrates asked him if he had anything to say for himself, and he replied he was very glad to meet such wise men, as he had a difficult question to ask them, which he could not solve himself. The question was this, he said:

"The wheels of the cart belong to John, the miller; the body of the cart to the vicar, and the old bones (meaning the horse) belong to me, and, gentlemen, if you tell me what name I'm to put on the cart I'll have it done immediately."

The magistrates dismissed the case.—London Tatler.

He Wasn't Using It.

Shortly before Senator Money left for Europe he was advised by his physician to give up smoking. The physician happened up at the capitol one morning, when he dropped into the Mississippi committee room to say "Hello." As he entered, he observed the senator, reared back in his chair with his feet on the desk and a huge cigar in his mouth.

"Here, senator," he said, "I thought I told you to quit that."

"Quit what?" asked Mr. Money in mild surprise.

"Quit using tobacco."

"Tobacco? Why, my dear doctor, I am not using tobacco. I am merely smoking a cigar. Senator Beveridge says so."—Washington Cor. New York World.

She Shunned the Mirror.

Miss Mary Worley Montagu wrote from Venice at the age of sixty-eight: "It is eleven years since I have seen my face in a glass. The last reflection I saw there was so disagreeable I resolved to spare myself such mortification for the future, and shall continue this resolution to my life's end. To indulge all pleasing amusements and avoid all images that give disgust is, in my opinion, the best method to attain or confirm health."

A GOOD WOMAN LAID TO REST

Funeral Services of Mrs. Emily Jane McCullough Conducted From the Family Residence Near Riggs-ton.

Impressive funeral services were held for the late Mrs. Emily Jane McCullough at the family residence, one-half mile west of Riggs-ton, Wednesday afternoon. The ministers in charge were Rev. Edson S. Borton of Urbana, Ill., a former pastor of the Riggs-ton M. E. church, Rev. Scott Peak of Exeter and Rev. Joseph Camp, a nephew of the deceased, of Eureka. There was an unusually large gathering of friends to pay a last tribute of respect to one whose life had been intimately associated with that community, for the past seventy-five years.

Musical for the sad occasion was furnished by Miss Minnie Coulas, Miss Jessie Richardson, Norman Campbell and Albert Morris, with Mrs. Roy Coulas as pianist. They sang most tenderly the following hymns much loved by the deceased: "Gates Ajar," "Sweet Hour of Prayer," "Rest for the Weary."

Rev. Scott Peak gave the scriptural readings, taking those verses which abounded in sympathy and hope. He also spoke briefly of Mrs. McCullough, stating that it had been his privilege to know her for many years and that it was indeed a sad occasion to him, for the death of Mrs. McCullough meant the removal of one of his life long friends, one from whom he had gathered many lessons of faith and courage and a woman whose place in the community would be hard to fill. He deemed it indeed an honor to say a word of esteem and sympathy. He closed with a fervent prayer.

Rev. E. S. Borton, a former pastor and long time friend of the family, preached a most touching sermon. He took for his text "Blessed are the dead who die in the Lord." He said that words almost failed him to tell what was in his heart. It had been his privilege to know Mrs. McCullough for so long, in fact she was almost a mother to him. He never knew her to speak an unkind word, or to do anything that would offend. She always had a happy way of meeting every obstacle that came in her pathway and her ever cheerful disposition carried a divine lesson to all who knew her. The speaker stated that before a person could be termed blessed in connection with death they must first be loved in life. They must know the Lord. Early in life Mrs. McCullough had found her Saviour and in his footsteps she ever followed. It would be a great calamity, Rev. Borton said, if a person could not die by her a greater calamity than to live on. When she comes to the grave, the body and mind will be what a great calamity

indeed it would be if such a person could not pass away. To a person who lives right, death is not to be feared, they are anxious to cross over the river and be with the loved ones. It was a source of great sympathy to know that Mrs. McCullough died in the faith. The pastor spoke of the beautiful flowers and how in a measure they were a sign of the love of friends, and how their fragrance typified the sweetness of her life. His words of condolence to the family were very pathetic and deep from his heart.

Rev. Joseph Camp, a nephew of the deceased, was called upon for a few words. He said that it was hardly an appropriate time for him to speak. From a little boy "Aunt Em" had been a real part of his life. He learned to look upon her with the tenderness of a mother and many of his boy-hood days had been spent in her home, with a welcome so full of love. He spoke of the long period of her life and how many changes she had seen in the community. He said that those present were only a small portion of the many lives who had come in contact with Mrs. McCullough and had been made richer thereby and what a great thing it would be could they but pass her on to day. The scripture he quoted was most comforting.

The flowers were extremely beautiful and many. The offerings included a large harp, Gates Ajar with the words "Mother" thereon and a handsome wreath from the Ladies' Aid society of the Riggs-ton M. E. church of which the deceased was a member. There was also a variety of prettily designed cut out flowers. These were tenderly cared for by Mrs. W. H. Stull, Mrs. Ellen Campbell, Mrs. Henry Gordon and Mrs. Myra Watt.

Interment was made in the Gillham cemetery, the remains laid beside those of her husband. The quartet sang "In the Sweet Bye and Bye" and "It is Well With My Soul." The grave was completely hidden by the flowers. Here Rev. Mr. Borton read several scriptural passages and G. Howard McCullough, a son of the deceased, offered prayer.

The bearers were William A. C. George Howard and W. Elmer, son of the deceased, Benjamin Gibbs, Prof. F. W. Everhart, sons-in-law and John Allyn, a stepson of the deceased. Among those from a distance to attend the funeral were Rev. and Mrs. Joseph Camp and Mrs. Cynthia Brasfield of Eureka; Mr. and Mrs. John Allyn, Jr., of Keokuk, Iowa; Mrs. Anna Calloway, Chas. W. William L. Fay, W. A. Fay, Mr. and Mrs. William H. Stull, William McCullough, Mr. and Mrs. William Verboes, H. E. Lane, Mrs. D. Camp, Harris-town, Mrs. Alice Gordon of Little Indian; Mr. and Mrs. Joan Allyn of St. Louis. There

was a large attendance from Winchester and from towns closer.

She was the daughter of George and Nancy Camp, born at the Camp homestead, March 19, 1837. In the old home she grew to womanhood, and at the age of 25 was united in marriage to William McCullough, October 16, 1862.

To this union were given nine children, two of whom died in infancy; those surviving are, Mrs. R. P. Allan, William G. Abel C. Mrs. T. W. B. Everhart, Mrs. H. B. Gibbs, G. Howard and W. Elmer. Not only to these was she a mother, but also to Mrs. J. M. Allyn and to Mrs. Luther Hornbeck, who died December 27, 1888, daughters of William McCullough, by an earlier marriage with Martha Ann Campbell. Beside these children, nine grand children survive to mourn her departure, one sweet bud, Katherine Dayton McCullough, daughter of Mr. and Mrs. W. E. McCullough, having been plucked for the heavenly glory September 28, 1908.

At an early age Mrs. McCullough dedicated her life to God, joining the Union Baptist church located on the state road two miles west of Merritt, January 14, 1876. She transferred her membership to the Riggs-ton M. E. church by a letter given by Rev. J. H. Dickson. During all the years which followed her conversion, Mrs. McCullough was a loyal, faithful and devoted member of the church, militant till the captain of her salvation called her to the church triumphant.

Like the Shunamite woman of old, she had ever ready a bed chamber and a seat at the table for the prophets of God. Many are the elders, ministers, evangelists and singers who, having enjoyed her devoted earthly ministrations, awaited her on "the gold strand." Through her consistent daily life and faithful Christian training she commended her religion to her children and lived to see all of them members of her beloved church. Mrs. McCullough was always an industrious and self-sacrificing woman. She toiled early and late without a murmur or complaint. To the usual cares and responsibilities of so large a home and family were added for many years her special care for her beloved husband, occasioned by his painful sufferings. After his decease, December 30, 1902 she still remained at the old homestead, the management of which was assumed by Mr. and Mrs. W. E. McCullough. During these years she visited much among her devoted children, whose homes she always gladdened by her coming. Having a sister, Mrs. Marjorie Bent,

who lived for many years in California before she was called to her heavenly home, Mrs. McCullough longed to visit her sister's last earthly abode and her final resting place. To this end a western trip was planned, her son Howard and her daughter Laura accompanying her. While visiting in Colorado Springs on the return trip, she was the victim of a slight apoplectic stroke, making it necessary to hasten home.

A consultation of physicians disclosed the deplorable condition of the continuous care of a nurse, in addition to the helpful ministrations which it was possible for the children to render. For several months Mrs. D. O. Gordon effectively and lovingly rendered this service. She was succeeded by Mrs. Myra Watt who for the past three and a half years tenderly and efficiently gave to Mrs. McCullough the most devoted care.

"Though a physician's service was often needed, not until the beginning of the past January did she go to her bed for the final struggle. Through all these months and years, she was a marvel of uncomplaining patience. Her loving children, her attending physician and faithful nurse did everything conceivable or possible to stay the pall hand and give her comfort. Slowing his pace, as if out of sympathy for the hearts which grief would fill, the pale rider nevertheless persistently advanced his demands until on Sunday afternoon, with all her living children around her, the peremptory call came, and Mother McCullough was not, for God took her.

She is the last of a large family that has played an important part in this and other communities. She leaves a wide circle of neighbors, friends and relatives who mourn the loss of one of God's noblewomen, and a family of sons and daughters who realize that she who loved them most, who knew them best, who sympathized most fully in their every experience, is gone out of this life forever.

She fought a good fight, she kept the faith and we feel has received the crown which the righteous Judge had reserved for her; and not for her only, but for all of us who love his appearing.

RECORD OF A GREAT MEDICINE

Doctors Could Not Help Mrs. Templeton—Regained Health through Lydia E. Pinkham's Compound.

Hooper, Nebraska.—"I am very glad to tell how Lydia E. Pinkham's Vegetable Compound has helped me. For five years I suffered from female troubles so I was scarcely able to do my work. I took doctors' medicines and used local treatments but was not helped. I had such awful bearing down pains and my back was so weak I could hardly walk and could not ride. I often had to sit up nights to sleep and my friends thought I could not live long. At my request my husband got me a bottle of Lydia E. Pinkham's Vegetable Compound and I commenced to take it. By the time I had taken the seventh bottle my health had returned and I began doing my washing and was a well woman. At one time for three weeks I did all the work for eighteen boarders with no signs of my old trouble returning. Many have taken your medicine after seeing what it did for me. I would not take \$1000 and be where I was. You have my permission to use my name if it will aid anyone."—Mrs. SUSIE TEMPLETON, Hooper, Nebraska.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of suffering women. Why don't you try it if you need such a medicine?

CHANGED THE PLAY.

Peter the Great Turned the Comedy into a Tragedy.

It is related that Peter the Great, that mighty czar of Russia, strolling incognito through the camp, came upon a party of noncommissioned officers and grenadiers enacting a comedy, which he paused to witness.

All at once his brow became clouded. In the play a soldier in the uniform of his guard commits at a certain moment a robbery. Nevertheless the emperor allowed the play to proceed. The court martial is summoned on the stage and the thief is sentenced to death. The spectators, composed of officers and men, showed the most lively concern in the performance and laughed at the grotesque contortions of the condemned culprit. The amateur actor played his part very well. Here come the squad that is to execute him. "Fire!" orders the lieutenant, and the amateur dropped down dead, his heart pierced by seven bullets—no make believe, but dead indeed.

Whereupon the emperor dropped his incognito and addressed those assembled: "A soldier of my guard who committed a robbery must die. If he did not steal why did he boast of it and soil his uniform? It is I who ordered the loaded rifles given to the men. I henceforth forbid my soldiers to play the trade of mummery."—Argo nant.

PHILADELPHIA SCRAPPLE.

How to Prepare This Inexpensive and Highly Nutritious Dish.

Have your butcher clean a pig's head and split it in halves. Put it into a stock pot and cover with boiling water. Cook until meat falls from the bones. Remove the meat, strain the liquor and set aside to cool. Remove most of the fat, all gristle and bones. Chop meat fine.

Remove fat from liquor, place on range, bring to boiling point, add meat and one pound of beef liver previously parboiled ten minutes and cut in very small pieces. Season with salt, pepper and sage to taste. Add one cupful of buckwheat mixed with one cupful of cornmeal, letting it slip through the fingers of the left hand while you stir briskly with the right. Thicken with cornmeal until mixture is the consistency of cornmeal mush. Stir until free from lumps. Remove to back of range and simmer two or three hours. Use a heavy vessel to cook the mixture in. This lessens the danger of scorching.

Pour mixture into brick shaped bread pans previously wet with cold water. When cold cut in half inch slices and saute in a well greased hot spider. Brown on both sides. Serve for breakfast or luncheon. This is an inexpensive dish and is highly nutritious and will keep several weeks in cold weather.—National Food Magazine.

High Living in Germany. The Lokal Anzeiger of Berlin publishes an urgent appeal to German society leaders to return to "simple eating." It says that the luxury era in Germany has caused an extravagance in dining which threatens financial impoverishment and digestive ruin.

Carlsbad, Marienbad, Kissingen and other spas which cater to the needs of "penitent gluttons" are, says the journal, visited by numbers, annually increasing, who go there in spring and summer to make amends for overeating and overdrinking in winter. "It would be a genuine public service on the part of leading society personages if they would begin by practical example to wage war on the sensual luxuries of modern entertaining, as far as the culinary end of it is concerned. Only by a return to simple and sensible dinners can we avert genuine economic and physical perils."

Streets of New York. "Anything in the line of luck can happen in New York city," observed a commercial traveler recently, "and some of the funniest stunts are accidentally pulled off. I saw something the other day quicker done than told. An automobile was going down Broadway. A woman dropped a magazine or book from it. A man picked it up—a man worse for poverty. As the chauffeur turned the vehicle this man threw the magazine or book into it, and the woman tossed a coin at him. Another man, running down Broadway, caught the coin and continued running. The man who had lost his tip started to laugh, and soon Broadway was laughing with him, although not knowing what it was laughing at."—New York Tribune.

Flat Woes. "Was there a telephone call for me this morning?" I asked the West Indian bellboy. "No, sir," he answered positively. "They ain't been no such call fuh you fuh two days, sah." "Are you sure?" "Yes, sah, positive." "Well, if one comes for me this afternoon say I'll be in later." "Yes, sah—what's your name, sah?"—Toledo Blade.

Slim Chance. "Is there any chance of a young man escaping loss the first time he goes into Wall street?" "Well, it is a toss up if he escapes the bulls and a tight squeeze if he gets away from the bears."—Baltimore American.

So She Does. "Dog watches are common on ships, but what can a cat do?" "She comes in handy for a pur, sir."—Baltimore American.

PLAYGROUNDS.

What Dr. Curtis, a Famous Expert, Has to Say on the Subject.

In a recent lecture at Bloomington says the Pantagraph, Dr. Curtis said: "Dr. Curtis told of many places where there are playgrounds on vacant lots, which under the ordinary custom of handling are of but little benefit to the children. It has been shown by statistics that a comparatively small radius provides all the children which come to any one playground. A half mile is the extreme limit as shown by reliable statistics. The undirected playground has never been the attractive place for the children which it should be. It has been shown by experience that the ordinary vacant lot loses its charm for the children, and but a small percentage of those within the usual radius ever come to the ground."

Teaching Play a Magnet. But let an intelligent and competent person be put in charge of such grounds and immediately its attractiveness to the children increases by leaps and bounds. The secret is that the games are organized and their principles taught. The intelligent director does not simply tell Johnny to go over to one corner and play leap frog, and Susie to go into another corner and play ring around a rosy, but he organizes the forces of the children into a given game and they can easily carry it on themselves, while the director goes to another ground for the same purpose. The child requires most of its habits on the playground and this fact emphasizes the importance of properly directed play.

Many Benefits. Dr. Curtis spoke of the many benefits of healthful play, saying that one of its results is to teach grace. Every natural movement of the child is graceful. Proper play not alone develops the muscles, but it aids digestion and all the other functions of the body. The speaker cited first the experiences of New York, in which the playground movement had a hard time to get a start, but where its growth has been remarkable.

Benefit to Health. Dr. Curtis cited the benefit of playgrounds in many cities in improving the general health of the neighborhood. He told of the successful efforts by the playground in combating tuberculosis among tenement children. There is the health-

ful, energetic child and the more slothful child, the same as these two classes are met among adults. The directed playground provides a proper outlet for the one and a stimulus for the other.

Chicago and Kansas City. Dr. Curtis told what a great cry went up in Chicago about extravagance when the first appropriation was asked for playgrounds. But the benefits of the movement are now generally recognized in that city and the money for that purpose is regarded as among the most beneficial of public expenditures. In closing the speaker took up the subject of whether or not the people in general can afford to spend the money for playgrounds and the direction of the same. He cited the annual bill of many millions for drink which the American people spend. Then there is the item of the theatres, which is another stupendous aggregate. He said that the people could well spend millions for playgrounds for their children rather than in either of these methods.

HAND BADLY CRUSHED. Charles Goetha of 622 West College street, who is employed at John Frank's bakery, received a severe injury Wednesday when his right hand became caught in the dough roller at the bakery. All the fingers of the hand were badly mashed, the flesh being cut to the bone. The middle finger was fractured and the ring finger had to be amputated. Dr. Allen M. King was called and took Mr. Goetha to Our Savior's hospital, where his injuries were dressed.

CUT HAND WITH KNIFE. Albert Van Burr, son of Mr. and Mrs. A. G. Burr, severely cut his thumb Wednesday, when a knife went shut on his hand. He went to the office of Dr. Allen M. King and had the member dressed, several stitches being required.

TRIBUTE TO MISS EDEN. At the chapel hour Wednesday morning at the School for the Deaf, Prof. Frank Read paid a most eloquent and touching tribute to the memory of Miss Lavinia Eden, mention of whose death was made in the Journal of same date. Prof. Read had known her from his childhood and was well qualified to speak.

NO ACHE OR PAIN IN YEARS

Short Course of New "United" Treatment Cured Her to Stay Cured and in Gratitude She Tells Others.

It will be a great satisfaction to sick people, who have doctored and doctored without being cured of their diseases, to know that if they will go to the trouble and expense of calling upon the United Doctors who have their Jacksonville office on the second floor of the Parrell Bank building, there is still hope of speedy relief and ultimate cure.

Mrs. G. W. Yetts of 679 South Nineteenth street, South Omaha, Neb., is one who knows that the United Doctors do not relieve by treating symptoms as most doctors do. The United Doctors go further; they search out the cause of the disease and remove the cause, thus their patients are cured to stay cured. Mrs. Yetts writes: "I just want to state for the benefit of all sick people that I am certainly thankful for what the United Doctors have done for me. I had doctored with a great many doctors and each one had told me a different story as to what was the matter with me. Some said it was liver trouble, and others said it was some terrible growth that could only be cured by an operation. However, with all the doctoring I had, I got no relief whatever. In fact, I got worse all the time until finally I was persuaded by my husband to go to the United Doctors.

At that time it was trial for me to get to the office at all, I had so little strength, but I went and after a thorough examination, they seemed to understand my case from the start. I took their treatment for one month only, and at the end of that time I was entirely well. That was about two years ago and I have not had a sick day since.

I certainly owe my good health, and maybe my life, to the United Doctors. I have sent a good many sick people to them for treatment and they, for any one in need of the right treatment for their ailments, will surely get it by going to the United Doctors.

The United Doctors' Jacksonville

office, on the second floor of the Parrell Bank building, is open only on each second, Friday and Saturday. The next date on which it will be open is Friday and Saturday, May 3 and 4.

Examination and consultation is free to all.
